"Fluctuating Warmth-Floods of Rain"

This is the November weather prediction that comes from a Boston prophet. So November will evidently be a bad month for the food in the window sill ice box. Constantly fluctuating temperature is just what bacteria thrive on-just the weather when they develop and flourish, and ruin food.

As far as can be learned the only cause for the postponement of action is Mr. Mott's desire to have Supreme Court Justice Parker charge the Grand Jury specially on this case. Justice Parker has gone to New Orleans and Havana for a vacation and will not be back until November 19. It is possible therefore that no action will be taken until his return ard the Grand Jury may not be called until after that time. On the other hand, it is thought possible to the hand.

Residents of Hiawatha and Pocahontas avenues feeling that they should not be called a crowd of Indians when their avenues are mentioned, also want the names of these thorough-

authorities. That the authorities still believe the persons directly connected with the crime are still in New Bruns-wick or the nearby countles was evi-denced to-day when one in high author-ity remarked that the whole case was still in the family circle of the "woman in gray".

Raymond Schneider was indicted to-day by the Middlesex County Grand Jury on the charge of carnal abuse, the chief witness against him being Pear! Bahmer, who, with Schneider, found the bodies of Hall and Mrs. Mills on the morning of September 16. Pearl was brought down from the home to which she has been committed to appear before the Grand Jury.
